

ت	اسم الاستاذ	عنوان البحث
1	ا.د.محمود شاكر خضير	1.Common causes of hypoglycemia in a sample of patients with type 2 DM 2-Evaluation of metabolic profiles in patients with obesity 3-Common pituitary disorders in patients attending immamein kadhymian hospital endocrinology clinic 4-Evaluation of a sample of patients with hypothyroidism 5-Common causes of hospital admission of patients with diabetes mellitus
2	ا.د.حسن عزيز الحمداني	1. Clinical presentation of cerebral venous sinus thrombosis 2. Risk factors of cerebral venous sinus thrombosis 3. epilepsy in the elderly 4. Lesion Localization in Acute Stroke 5. Insomnia in tension-type headache
3	ا.د.وسيم فاضل محمد	1.Awareness and Clinical Readiness to Recognize Hematological Emergencies Among Junior Doctors 2. Barriers to Learning Hematology in Medical Education 3. Assessment of Medical Trainees' Perceptions and Interaction with AI Tools for Clinical Reasoning 4. Effect of Peer Teaching on Understanding of Complex Hematology Topics
4	ا.د.جواد كاظم مناتي	1.Autonomic neuropathy (AN) in chronic renal failure 2.control of hypertension in patients admitted to hospital 3.assessment of hyperphosphatemia in hemodialysis patient with chronic renal failure 4.hyperuricemia in chronic renal failure 5.complication of double lumen in hemodialysis patients
5	ا.د.عارف سامي مالك	1. The effect of A-V fistula versus dual lumen HD catheter on Adequacy of dialysis 2. Complications during HD 3. The effect of anemia on adequacy of dialysis 4. Clinical evaluation of the most possible causes of end stage kidney disease 5. Assessment of the calcium- phosphorus hemostasis in patients undergoing hemodialysis
6	ا.م.د.حيدر عبد الحميد رشيد	1- Awareness of asthma among respiratory outpatient patients 2- Awareness of vaping dangers among medical students 3- AI use among medical students 4- Asthma symptoms prevalence among medical students 5- smoking exposure among patients attending tertiary hospital
7	ا.م.د.رافد بشير هاشم	1.comparison of oscillometric and electronic BP measurement 2.effect of HbA1c on STEMI outcome in diabetic patients 3.Relation of time 1st medical contact in STEMI on prognosis 4.Causes of failed thrombolysis in STEMI patients 5.Accuracy of heparin dose in ACS patients in CCU

1. Localization of ischemia by ECG, Echocardiography, and coronary angiography 2. Comparison of clinical presentation, echocardiography, and CT PA in patients with pulmonary embolism 3. Cardiovascular manifestations of patients with thyrotoxicosis 94. Frequency of leg edema in hypertensive patients treated with amlodipine vs amlodipine plus ARBs/HCT 5. Atherogenic index in diabetic vs non diabetic patients	ا.م.د. مؤيد بشير حامد	8
1. Knowledge and Attitudes Toward Psoriasis & Psoriasis-Associated Comorbidities Among 6th-Year Medical Students 2- Evaluation of Clinical and Epidemiological Aspects in Patients with Vitiligo 3- Assessment of Epidemiological Patterns of Viral Skin Infections in Preschool Children: Frequency. Clinical Types. & Risk factors 4- Assessment the Frequency and Clinical types of Cutaneous Infections in Obesity 5- Evaluation the Impact of Medical Education on Influencing Attitudes Toward the Sustainable Development Goals Among 6th-Year Clinical Medical Students	ا.م.د. اقبال غالب فرهود	9
1- Thyroid function test in patients with Parkinson's disease 2- Renal function assessment in patients with ischemic stroke 3- Renal function evaluation in patients with ICH 4- Echo findings in patients with ischemic stroke 5- S.lipid profile in patients with ICH	ا.م.د. عبد الكريم كاظم جابر	10
1. KAP of medical students regarding sun protection. 2. Types and frequency of psoriasis in Patients Attending Imamain Al-Kadhimain Medical City. 3. Evaluation the clinical aspects of melasma in Patients Attending Imamain Al-Kadhimain Medical City. 4. Assessment the types and risk factors of foot dermatitis in Patients Attending Imamain Al-Kadhimain Medical City. 5. Application and uses of artificial intelligence in dermatology.	ا.م.د. حسن ناصر محسن	11
1. Knowledge and attitude and practice of counselling with AI for psychological and personal difficulties among medical students 2- complex PTSD among medical students .. replication based on standard assessment 3- validity of the preoccupation with self diagnosis of attention deficit disorder ADD among medical students 4- relationship between autism spectrum disorder and perinatal complications , retrospective study 5- suicide risk and internet addiction among medical students	ا.م.د. عدي خالد عبدالجبار	12

1. Risk stratification in patient with UGIT bleeding according to Rockall Score in Patient admitted to medica 2. Assessment for hidden liver fibrosis over diabetic patient Admitted to medical ward using FIB-4 Score. 3.Screening for fibrotic MASH in individuals at high risk of MASLD using Fibrotic NASH Index. Amoxicillin. 144. Successful rate of H. pylori eradication with dual therapy of Vonoprazan – 5. Incidence of Microscopic Colitis in patients presented with chronic diarrhea and normal colonoscopy	ا.م.د.علي سمير موسى	13
1. Frequency of Joint Hypermobility and Its Association with Chronic Pain or Fatigue in Medical Students 2. Patterns of Traditional Medicine Use Among Rheumatology Patients in Iraq 3. Diagnostic Delay in Rheumatoid Arthritis: A Retrospective Review in a Rheumatology Clinic 4. Awareness and Beliefs About Rheumatic Diseases Among Medical Students 5. The Impact of Weather Changes on Joint Symptoms in Patients with Osteoarthritis or RA	ا.م.د.ياسمين عباس حمادي	14
1. Psychosocial Impact of Acne Scars on Quality of Life Among Medical Students: A Cross-Sectional Study 2 . The influence of social media on acne treatment: A cross-sectional survey 3. Frequency of Cutaneous fungal infections in diabetic patients. 4. Frequency of Comorbidities Associated with Alopecia aerate in Patients Attending Imamain Al-Kadhimain Medical City” 5. Frequency of Seborrheic Dermatitis and Its Correlation With Stress Among sixth grade Medical Students at Al-Nahrain Universityl	ا.م.د.خلود عباس علي	15
1- Dyspnoea symptoms (NYHA grading) in pt with echo study proved pulmonary HTN (mild, moderate & severe) 2- comparative study between Baghdad and less crowded city in terms of percentage of hospital attendance (surgical emergency and medical emergency etc) to find out what is the ideal population in a city that lessens the medical and social problems (need at least 3 students working together each in his home city) 3- Average of sleeping hours per day and the academic rank of the medical student in Al-Nahrain medical college (3rd year students) 4- Causes (final diagnosis) of hospital admission of bedridden stroke patients during winter (November, December, January) 5- Incidence of over the counter antibiotics intake (hx taking) in 100 pts presented currently with documented fever	م.د.نزار محمود محمد	16
1-Prevalence of hypertriglyceridemia and raised LDL cholesterol in hypothyroid 18patients 2- FIB 4 ASSESSMENT in type 2 Diabetic patients 3- prevalence of retinopathy in type 1 diabetic patients with less than 5 years duration of the disease 4. PREVALENCE of microalbuminuria assesses by UACR in T2DM patients less than 5 years from diagnosis 5. Prevalence of retinopathy in prediabetes patients	م.د.جلال عبد علي حمودي	17
1 frequency and types of skin cancer in patients attending Al-imamain Alkadhyman hospital 2 evaluation types and frequency of cutaneous manifestation in patients with disabilities mellitus 3 assessment of frequency and types of cutaneous manifestation in patients with end stage renal disease 4 assessment of epidemiological patterns of parasitic skin infection in patients attending Al-imamain Alkadhyman hospital:frequency and clinical types 5 evaluation of types and frequency of nail disease in patients attending Al-imamain Alkadhyman hospital	م.د.ايثار فلاح حسن	18
1-Hypertension in AF -Aortic and mitral valve disease in patients with ischemic stroke 2-Effect of examination settings on student performance in clinical examination 3-Treatment inertia among physicians in using combination therapy for hypertension 4-Physician adoption of evidence based medicine for managing hypertension and diabetes	م.د.اوس صباح غني	19
