

سابعا:- خطة مشاريع تخرج طلبة الدراسات الاولى

ت	اسم الطالب	عنوان المشروع	اسم المشرف على المشروع
1	لايوجد	1. Rickets in children below 2 years. 2. Incidence of bronchiolitis in breast fed children below 2 years of age. 3. Frequency of ABO incompatibility in neonatal jaundice. 4. frequency of parental diarrhea in pediatric age group. 5. Frequency of hemorrhagic disease in neonatal period .	ا.د. عبد الكريم محمد علي
2	لايوجد	1.Pediatric Hemodialysis in Al ImamainKadhimain Medical City 2.Hospitalization of children with Nephrotic Syndrome 3.Profile of Nephrotic Syndrome in children in Al ImamainKadhimain Medical City 4 Epidemiological study of CKD in childrenin Al ImamainKadhimain Medical City 5 Frequency of Hypertension in children with Nephrotic Syndrome	ا.د. شذى حسين علي
3	لايوجد	1.Frequency and Risk Factors of Neonatal Jaundice among neonates in Al ImamainKadhimain Medical City 2. Incidence and Risk Factors of Bronchiolitis in Children Under Two Years in Al ImamainKadhimain Medical City 3. Frequency of Iron Deficiency Anemia among Children Aged 6 Months–5 Years and Associated Risk Factors 4.Risk Factors for Gastroenteritis-Related Hospital Admission in Children Under Five Years 5.Frequency of Delayed Vaccination among Children Under Two Years in Al ImamainKadhimain Medical City	م.د. صبا عبد الكاظم
4	لايوجد	1-maternal UTI as a risk factor of neonatal jaundice 2-knowlage of Iraqi mothers about risk factors and treatment of neonatal jaundice	ا.د. اريج عبد العباس

	3-Prevalence and risk factors for occurrence of congenital anomalies in neonates at Al Emamain Al kadhemia Medical City. 4-Association between childhood anemia and lower respiratory tract infections. 5-commonly used drugs in treatment of neonatal Sepsis in Al Emamain Al kadhemia Medical city.		
ا.م.د. سنان عبد الرزاق	1.Respiratory distress in neonates ,causes ,risk factors and outcome. 2.clinical predictors of chd in neonates heart murmur . 3.febrile illness in children admitted to the pediatric ward(causes,hospital stayand outcome). 4.Relation between immunization status and children admitted with febrile illness. 5.Causes of death in children admitted to the pediatric ward (retrospective one year study)	لا يوجد	5
ا.د. عبد الكريم جاسم	1.Risk factors for diabetic ketoacidosis in children with type 1DM. 2. Role of vitamin D supplementation in glycemic control in type 1DM. 3. Use of ORS in treatment of gastroenteritis in children admitting to Alemmamain Alkadhemia medical city 2. 4. The effect of intensive phototherapy on management of hyperbilirubinemia in neonate. 5.Causes of mortality rate of neonate in NICU at Alemmamain	لا يوجد	6
ا.د. لمياء عبد الكريم حمودي	1. Frequency of congenital anomalies among preterm neonates. 2. Complications of CPAP use. 3. Indication of exchange transfusion in neonatal jaundice. 4. Common clinical presentations of neonatal sepsis. 5. Acute gastroenteritis and breast feeding.	لا يوجد	7
م.د. زينب عباس	1.Clinical Patterns and Prevalence of Acute Gastroenteritis in Children Under Five Years Old in hospital. 2.Prevalence of Obesity and	لا يوجد	8

	Overweight Among School-Aged Children . 3.Common Precipitating Triggers of Acute Asthma Attacks Among Children Attending Pediatric Emergency Departments. 4.Evaluation of Exclusive Breastfeeding During the First Six Months and Factors Contributing to Early Transition to Formula Feeding. 5..Patterns of Accidental Poisoning Among Children Under Five Years admitted to Emergency.1
